Do you intend to practice law in McLean County?

Yes

Explain your ties to McLean County and/or why you hope to practice law in McLean County

I was born and raised in New Orleans, Louisiana. Between a shadowship of the great work done at the Innocence Project of New Orleans and my undergraduate degree in honors finance, I knew going into law school that I wanted to practice corporate law, hopefully involving securities. There is not too large of a market for securities law in Louisiana. I knew I would have to start a life and practice elsewhere. I cast a wide net, and due to scholarship money and a great business law program and negotiation board, I selected the University of Mississippi. It became my professional goal to work in house. My 2L year, I happened upon an in house corporate law internship for State Farm's headquarters. I was so thrilled to be offered the internship. Even though I worked remotely due to COVID complications, I fell in love with working at State Farm. I am so blessed and grateful to have accepted an offer to work in house at State Farm in Bloomington next fall. My family is just my mom and I (my father passed when I was much younger). I plan on moving her up to Bloomington with me and building my future family there. State Farm seems like the type of company it is easy to build a long-lasting career at. I am very excited to start this new adventure and chapter in my life.

Community Service/Extra-Curricular Activities

Law School Extra-Curriculars: Transactional Law Clinic (Fall 2019)(This clinic helps those who can't afford attorneys file the startup paperwork and documents like employment contracts for LLCs and non-profits.); External Competition Chair, Negotiation Board; Dean's Leadership Council; Treasurer, Graduate Student Council (2L); Director of Student Organizations, Student Bar Association; Trial Ad NTC Regional Competition; Research Assistant for Prof. Hans Sinha; VP, Business Law Network; Judge for MTSU Annual Mid-South Invitational American Mock Trial Association Tournament.

Undergraduate Extra-Curriculars: LSU Student Conduct Board, Student Finance Association, Student Financial Planning Association, Zeta Tau Alpha Sorority, American Institute of Aeronautics and Astronautics, Ballroom Dancing Club of LSU.

Volunteer Work: Women's Auxiliary of the Terrytown Volunteer Fire Department (This is

my local fire department back home. Our fire department is strictly volunteer. I am the youngest member of the Women's Auxiliary. We primarily throw outreach events and fundraisers to fund new equipment and training for our volunteers. I believe I joined my junior year of undergrad.); Connections for Life (Is a non-profit for formally incarcerated women to transition back into society. It is located in Baton Rouge, Louisiana and I was primarily involved my last two years of undergrad.); Judge for Jefferson Bar Association Regional Mock Trial (I did Mock Trial at my high school at the regional and state level from 8th to 12th grade. I briefly did mock trial in undergrad. After I graduated undergrad and before law school, I was asked to judge the regional competition. My 1L year I was asked to judge an undergraduate regional mock trial as well.); Prom of Hope (This is an event put on by the What You Give Will Grow Foundation in New Orleans. It is for 13-18 yearolds with cancer or other terminal illnesses. I volunteered in 2018 to help the girls select and get fitted for donated ballgowns and prom dresses. I also worked the Prom of Hope itself about a month or so after the fittings. If there is a fundraising event when I am in town for this foundation, I work it. Like this winter break in 2019, I did gift-wrapping for donations event at a local boutique where all the proceeds went to the Prom of Hope.) At law school, I have done various food drives, donations for Christmas presents for local elderly members of the community, and a food packaging event to combat global hunger.
